## 5. Fire-fighting measures

- Suitable extinguishing media : Water spray, Alcohol-resistant Foam, Dry Chemical, Carbon Dioxide (CO<sub>2</sub>)
- Unsuitable extinguishing media: None known.
- Specific hazards during firefighting: Fire burns more vigorously than would be expected.  
Exposure to combustion products may be a hazard to health.
- Hazardous combustion products: Carbon oxides, Silicon oxides, Formaldehyde
- Specific extinguishing methods: Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.  
Use water spray to cool unopened containers.  
Remove undamaged containers from fire area if it is safe to do so.  
Evacuate area.
- Special protective equipment for fire-fighters : Wear self-contained breathing apparatus for firefighting if necessary. Use personal protective equipment.

## 6. Accidental release measures

- Personal precautions, protective equipment and emergency procedures: Remove all sources of ignition.  
Follow safe handling advice and personal protective equipment recommendations
- Environmental precautions: Discharge into the environment must be avoided.  
Prevent further leakage or spillage if safe to do so.  
Prevent spreading over a wide area (e.g. by containment or oil barriers).  
Retain and dispose of contaminated wash water.  
Local authorities should be advised if significant spillages cannot be contained.
- Methods and materials for containment and cleaning up: Soak up with inert absorbent material. For Large spills, provide diking or other appropriate containment to keep material from spreading. If diked material can be pumped, store recovered material in appropriate container.  
Clean up remaining materials from spill with suitable absorbent.  
Dispose of saturated absorbent or cleaning materials appropriately, since spontaneous heating may occur.  
Local or national regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to determine which regulations are applicable.  
Sections 13 and 15 of this SDS provide information regarding certain local or national requirements.

- Local/Total ventilation : Use only with adequate ventilation.
- Advice on safe handling : Handle in accordance with good industrial hygiene and safety practice. Take care to prevent spills, waste and minimize release to the environment.
- Conditions for safe storage : Keep in properly labeled containers.  
Store in accordance with the particular national regulations.
- Materials to avoid : Do not store with the following product types:  
Strong oxidizing agents

## 8. Exposure controls/personal protection

### Ingredients with workplace control parameters
